PROFESSIONAL SUMMARY

Frontend Engineer with over 7 years of experience developing and maintaining responsive web applications using React.js, Next.js, TypeScript, and JavaScript. Experienced in building dashboards, data visualizations, interactive mapping features, and REST API integrations. Skilled in feature development, bug fixing, unit testing, and maintaining existing applications while collaborating with Backend, QA, UI/UX, and Product teams in Agile environments.

TECHNICAL SKILLS

Frontend Development	JavaScript, TypeScript, React.js, Next.js, jQuery, EJS, HTML5, CSS3, SCSS
State Management & Data Fetching	Redux Toolkit, Zustand, TanStack Query, Redux Persist
GIS & Visualisasi Data	MapLibre GL, Leaflet.js, GeoJSON, WKT, interactive maps, map layer management
UI & Styling	Tailwind CSS, Material UI, Ant Design, Bootstrap, Radix UI, Responsive Web Design
Testing & Code Quality	Jest, Vitest, unit testing, ESLint, debugging, refactoring, code review
Browser Storage	IndexedDB, LocalForage
Backend & Integration	Node.js, Express.js, server-side routing, REST API integration, jQuery AJAX
Database & ORM Exposure	Drizzle ORM, PostgreSQL, MySQL/MariaDB
Development & Monitoring Tools	Git, npm, Vite, Chrome DevTools, New Relic, Datadog
AI-Assisted Development	Claude, Claude Code, GitHub Copilot
Collaboration & Process	Agile/Scrum, Jira, Confluence, Figma, technical documentation

WORK EXPERIENCE

PT Bhumi Varta Technology <i>Frontend Engineer (Web Application)</i>	Nov 2018 – Sekarang
- Develop and maintain responsive web applications for internal products and client projects using React.js, Next.js, TypeScript, and JavaScript. - Contribute to the development and maintenance of frontend architecture, including the implementation of Redux Toolkit, Zustand, and TanStack Query based on application requirements. - Build dashboards, data visualizations, and interactive mapping features using MapLibre GL and Leaflet.js, including geospatial data and dynamic map layer management. - Integrate frontend applications with REST APIs and coordinate with Backend teams to handle request and response structures, loading states, error handling, and various data conditions. - Create and maintain unit tests using Jest and Vitest for components, custom hooks, and utility functions. - Handle feature development, debugging, refactoring, code reviews, and technical documentation with support from AI-assisted development tools while collaborating with cross-functional teams in an Agile environment.	

Core Products & Client Projects

- **LOKASI Intelligence** — Core Product
- **LOKASI Targetin** — Core Product
- **LOKASI Datamark** — Internal Project
- **CELIA Location Intelligence** — **Telkomsel** — Client Application
- **LOKASI Intelligence** — **Esteh Indonesia** — Client Application
- **LOKASI Intelligence** — **FIF Group** — Client Application
- **LOKASI Intelligence** — **Honda Sales Operation** — Client Application
- **Indonesia Bertutur** — **Ministry of Education and Culture** — Client Application

PT Infomedia Solusi Humanika (ISH)

Jan 2018 – Okt 2018

IT Support — NCC 119, Kementerian Kesehatan RI

- Developed an internal SPGDT 119 emergency contact directory web application that helped customer service agents find emergency service information across different regions.
- Prepared and reported operational data using CMS Supervisor, SPGDT, and Navicat while monitoring the Avaya call system.
- Performed system troubleshooting and server maintenance to support the availability of the national 119 emergency service.

PT Mardani Technology

Feb 2017 – Apr 2017

Frontend Developer

- Developed user interface components for a Java-based desktop application and integrated them with application functionality based on project requirements.
- Collaborated with team members during feature implementation, testing, and delivery.

EXTERNAL PROJECTS

- **Aplikasi Pinternakan (Web Application)** — A livestock monitoring and data management application developed.
Stack: Next.js, Tailwind CSS, Redux Toolkit, Ant Design.
Github: github.com/Pinternakan/fe-colossal-home
- **Company Profile — Integra Design Consultant** — A company profile website developed.
Stack: React + Vite, TypeScript, Tailwind CSS, Ant Design.
Website: integradesignconsultant.com/projects

EDUCATION

Universitas Pembangunan Nasional “Veteran” Jakarta

2012 – 2017

Bachelor of Informatics Engineering - Faculty of Computer Science | GPA: 3.04 / 4.00
